**MENU**

**COFFEE**

We serve coffee that's roasted by Forty Ninth Parallel coffee roasters. We like their philosophy when it comes to coffee – that every cup should be a unique representation of its region, and taste delicious. They work directly with farmers internationally, a support system which ensures the farmers' benefit to the trade, and ensures the roaster that the farmer shares the same commitment and passion for the craft that they do.

**DRIP COFFEE**

**LONGITUDE 123**

A medium-roasted and balanced blend for drip that we always keep on our retail shelf, delivering a sweet and flavourful cup that represents the freshest coffee of the season.

**BRAZIL SÍTIO CANAA**

Our current house drip is from the region of Caconde, São Paulo, Brazil. Sítio Seriema is also known as the Brazilian Roadrunner, an elegant bird that lives in the area where the farm is located. This coffee has notes of pecan, maple syrup, and a mandarin-like acidity (as of December 31, 2020).

**ESPRESSO**

**OLD SCHOOL**

The current components of Old School consist of coffee from Limmu, Oromia region in Ethiopia and Pitaito, Huila in Colombia. We love to serve this espresso in house everyday. A nod to traditional espresso, this blend is roasted to the medium to dark range and offers a delicious balance of full body and low acidity, with notes of cocoa, caramel, and molasses (as of December 3, 2020).

**EPIC ESPRESSO**

A lightly roasted coffee from Gedeo, Ethiopia that delivers an incredibly sweet, clean espresso with floral notes and bright acidity (as of September 25, 2020).

**DECAF SWISS WATER PROCESS**

Served in house everyday, this blend consists of coffee from West Valley in Costa Rica and has sweet notes of caramel and cocoa. Using a mechanism specifically designed to filter out the caffeine molecule, Swiss Water Process aims to remove caffeine from coffee without impacting the existing flavours of the beans. First the coffee is soaked in pure water, and the resulting green coffee is sent through a carbon filter before the green coffee extract is introduced back to the coffee, but without the caffeine.

**ABOUT**

For decades, the corner of Ladner Village, the Se stands has been vital since 1963, a local proprietor of the corner grocery. This corner of Ladner a place to buy what more importantly, their own community, and felt welcomed into member of his family that shop.

Today, Johnny's youngest son, Robert, has inherited Johnny's passion for entrepreneurship, and turned an opportunity into a new-found passion: Stir Coffee House. Robert's mission is to continue to enrich the community that he grew up in with the same values his father taught him, as well as providing it with a perfect cup of coffee. Stir supports local businesses by sourcing its coffee, tea, baked goods, and some retail from local providers.
